Reporting is required for assistance agreements where there are funds budgeted for procuring construction, equipment, services and supplies, including funds budgeted for direct procurement by the subrecipient or procurement under subawards or loans in the "Other" category, including amendments and/or modifications.

This provision represents an approved deviation from the MBE/WBE reporting requirements as described in 40 CFR, Part 33, Section 33.502; however, the other requirements outlined in 40 CFR Part 33 remain in effect, including the Good Faith Effort requirements as described in 40 CFR Part 33 Subpart C, and Fair Share Objectives negotiation as described in 40 CFR Part 33 Subpart D and explained below.

For Indian Tribal, State and Local and Government subrecipients, this will include placing DBEs on solicitation lists and soliciting them whenever they are potential sources.
- (b) Make information on forthcoming opportunities available to DBEs and arrange time frames for contracts and establish delivery schedules, where the requirements permit, in a way that encourages and facilitates participation by DBEs in the competitive process. This includes, whenever possible, posting solicitations for bids or proposals for a minimum of 30 calendar days before the bid or proposal closing date.
- (c) Consider in the contracting process whether firms competing for large contracts could subcontract with DBEs. For Indian Tribal, State and local Government subrecipients, this will include dividing total requirements when economically feasible into smaller tasks or quantities to permit maximum participation by DBEs in the competitive process.
- (d) Encourage contracting with a consortium of DBEs when a contract is too large for one of these firms to handle individually.
- (e) Use the services and assistance of the SBA and the Minority Business Development Agency of the Department of Commerce.
- (f) If the prime contractor awards subcontracts, require the prime contractor to take the steps in paragraphs (a) through (e) of this section.

The subrecipient will submit performance reports through EPA's Puget Sound Financial and Ecosystem Accounting Tracking System (FEATS) every six (6) months during the life of the project. Reports are due 30 calendar days after the end of each reporting period. The reporting periods shall end March 31st and September 30th of each calendar year. Reports will be submitted to the DOH Contract Manager on the FEATS form provided by the Contract Manager and shall be submitted electronically.

In accordance with 2 CFR 200.328, as appropriate, the subrecipient agrees to submit performance (FEATS) reports that include brief information on each of the following areas:

- (a) A comparison of actual accomplishments to the outputs/outcomes established in the assistance agreement work plan for the period;
- (b) The reasons why established goals were not met, if appropriate;
- (c) Additional pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

In addition to the semi-annual performance reports, the subrecipient shall immediately notify the DOH Contract Manager of developments that have a significant impact on the award-supported activities. As appropriate, the subrecipient agrees to inform the DOH Contract Manager as soon as problems, delays or adverse conditions become known which will materially impair the ability to meet the outputs/outcomes specified in the assistance agreement work plan. This notification shall include a statement of the action taken or contemplated, and any assistance needed to resolve the situation.

## 2. Final Performance Report

The subrecipient shall submit a final performance report through FEATS, which is due 90 calendar days after the expiration or termination of the award. The report shall be submitted to the DOH Contract Manager and must be provided electronically. The report shall generally contain the same information as in the periodic reports, but should cover the entire project period. After completion of the project, the DOH Contract Manager may waive the requirement for a final performance report if the DOH Contract Manager deems such a report is inappropriate or unnecessary.

## 3. Program Income - Addition

If program income is generated, the subrecipient is required to account for program income related to this project. Program income earned during the project period shall be retained by the subrecipient and shall be added to funds committed to the project by DOH and the subrecipient, and shall be used to further eligible project objectives.

## 4. Recognition of EPA Funding

Reports, documents, signage, videos, or other media, developed as part of projects funded by this assistance agreement shall contain the following statement: "This project has been funded wholly or in part by the United States Environmental Protection Agency under assistance agreement PC-01J18001 to the Washington State Department of Health. The contents of this document do not necessarily reflect the views and policies of the Environmental Protection Agency, nor does mention of trade names or commercial products constitute endorsement or recommendation for use."

## 5. Peer Review

The results of this project may affect management decisions relating to Puget Sound. Prior to finalizing any significant technical products the Principal Investigator (PI) of this project must solicit advice, review and feedback from a technical review or advisory group consisting of relevant subject matter specialists. A record of comments and a brief

description of how respective comments are addressed by the PI will be provided to the Project Monitor prior to releasing any final reports or products resulting from the funded study.

## 6. Competency of Organizations Generating and/or Using Environmental Measurement Data

In accordance with Agency Policy Directive Number FEM-2012-02, <u>Policy to Assure the Competency of Organizations Generating Environmental Measurement Data</u> under Agency-Funded Assistance Agreements, subrecipient shall maintain competency for the duration of the project period of this agreement and this will be documented during the annual reporting process. A copy of the Policy is available online at <a href="http://www.epa.gov/fem/lab\_comp.htm">http://www.epa.gov/fem/lab\_comp.htm</a>.

Subrecipient agrees, by entering into this agreement, that it has demonstrated competency prior to award, or alternatively, where a pre-award demonstration of competency is not practicable. Subrecipient agrees to submit documentation and demonstrate competency prior to carrying out any activities under the award involving the generation or use of environmental data.

## 7. STORET Requirement

Subrecipients are required to institute standardized reporting requirements into their work plans and include such costs in their budgets. All water quality data generated in accordance with an EPA approved Quality Assurance Project Plan as a result of this assistance agreement, either directly or by subaward, will be required to be transmitted into the Agency's Storage and Retrieval (STORET) data warehouse using either WQX or WQX web. Water quality data appropriate for STORET include physical, chemical, and biological sample results for water, sediment and fish tissue. The data include toxicity data, microbiological data, and the metrics and indices generated from biological and habitat data. The Water Quality Exchange (WQX) is the water data schema associated with the EPA, State and Tribal Exchange Network. Using the WQX schema partners map their database structure to the WQX/STORET structure. WQX web is a web based tool to convert data into the STORET format for smaller data generators that are not direct partners on the Exchange Network. More information about WQX, WQX web, and the STORET warehouse, including tutorials, can be found at <a href="http://www.epa.gov/storet/wqx/">http://www.epa.gov/storet/wqx/</a>

If activities submitted as match for this federal assistance agreement involve the generation of water quality data, the resulting information must be publicly accessible (in STORET or some other database). Subrecipients are encouraged to develop a cross walk between any non-STORET database utilized for the storage of water quality data associated with match activities and EPA's Water Quality Exchange (WQX).

## 8. Riparian Buffers

Riparian buffer restoration projects in agricultural areas shall be consistent with the interim riparian buffer recommendations provided to EPA and the Natural Resource Conservation Service by National Marine Fisheries Service letters of January 30, 2013 (stamp received date – February 4, 2013) and April 9, 2013 (stamp received date – April 16, 2013), or the October 28, 2013 guidance. Grantees shall confirm in writing projects' consistency with the recommendations referenced above. When developing project proposals, grantees also should consider the extent to which proposals include appropriate riparian buffers or otherwise address pollution sources on other water courses on the properties in the project area to support water quality and salmon recovery. Deviations can only be obtained through an exception approved by EPA. In order for EPA to evaluate a request for an exception, the grantee must submit the scientific rationale demonstrating adequacy of buffers for supporting water quality and salmon recovery. The request must summarize tribal input on the scientific rationale or other relevant issues. The scientific rationale could be developed from sources such as site-specific assessment data, salmon recovery plans, Total Maximum Daily Loads (TMDLs) and the state nonpoint plan. EPA will confer with the National Oceanic and Atmospheric Administration (NOAA) and the Washington Department of Ecology and provide the opportunity for affected tribes to consult with EPA before making a final decision on a deviation request.

## 9. International Travel (Including Canada)

All International Travel must be approved by the Office of International and Tribal Affairs (OITA) **BEFORE** travel occurs. Even a brief trip to a foreign country, for example to attend a conference, requires OITA approval. Please contact your DOH Contract Manager as soon as possible if travel is planned out of the country, including Canada and/or Mexico, so that they can obtain appropriate approvals from EPA Headquarters. If you have questions, please contact your DOH Contract Manager.

## 10. Geospatial Data Standards

- iv. Contracts awarded by a subrecipient shall contain, when applicable, the anti-lobbying provision as stipulated in the Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards.

First, submit a <a href="waiver form">waiver form</a> to the NEP Quality Coordinator at Ecology (cc: to DOH Contract Manager) as soon as a final agreement or contract statement of work is in place, whether or not you expect a quality assurance project plan (QAPP) will be required. If a QAPP is required, the subrecipients will work with Ecology's NEP Quality Coordinator to develop and approve the QAPP.

## 13. ULO Stretch Goal

Subrecipients should manage their programs and subaward funding in ways that reduce the length of time that federal funds obligated and committed to subaward projects are "unspent" federal funds, not yet drawn down through disbursements to subaward recipients. EPA encourages the reduction of these unliquidated obligations (ULOs) by applying the following programmatic term and condition.

Subrecipients are to apply these "stretch" goals throughout the life of the agreement and to confer with your DOH Contract Manager whenever instances arise that make attainment of these stretch goals unlikely.

Stretch Goal: All funds should be spent in 2 years.

- Termination or expiration of this agreement.

In addition, EPA may authorize another grantee to use copyrighted works or other data developed with Agency funds provided under this grant to perform another grant when such use promotes efficient and effective use of Federal grant funds.

## **Thurston Conservation District February 2020 Financial Notes**

## Total (Restricted and Unrestricted) Year-to-Date Profit and Loss (Page 2)

1. In January 2020, the District's expenses exceeded its income by \$59,370.95. This is to be expected each month until May when TCD will receive one of the two major *Rates and Charges* payments; the other large payment is in November. As you can see on the Balance Sheet (page 4), the District ended January with \$104,640.49 in its checking account. Still TCD should avoid large discretionary purchases until cash flow stabilizes in May. I will be monitoring cash flow very closely until then.

## Unrestricted Profit & Loss Budget vs Actual (Page 7)

## Income

- 2. The 2020 *Plant Sale* budget is \$21,600.00. The District received \$6,404.39 of the plant sale income in 2019, so it may not reach that budget amount this year. If necessary, the board can address this potential shortfall during the Mid-Year Budget Revision process in June.
- 3. Just to note, the *Grant Revenue* income of \$95,600.00 will not be available to the District until July when TCD should be awarded the 2020 WSCC Implementation grant.

## Expense

- 4. The District's *Computer Services* expense was quite high in January. This was due to technical support from WSU to set-up the new computers the District purchased in December. The Board had increased the 2019 *Computer Services* budget amount to cover this tech support, but scheduling issues pushed the work out into 2020. The Board may want to consider increasing the 2020 *Computer Services* budget to cover this work during the Mid-Year Budget Revision process.
- 5. The *Election Expense* line item also ended high in January. However, the election is finished; we do not expect additional expenses under this line item for the remainder of the year.
- 6. The District's *Janitorial Services* monthly expense increased from \$220 to \$232 per month. We can address this increase during the Mid-Year Budget Revision process.
- 7. Whitlock, the District's landlord, has proposed an increase of *Office Rent* from \$3,950 to \$4,108 per month. We can address this increase during the Mid-Year Budget Revision process.
- 8. A new line item, called *Licenses and Permits*, has been added to the Unrestricted Budget. The amount reported for this line item in January covers the cost of the District's business license.
- 9. The District's Computer and Software Purchases expense exceeded the 2020 annual budget amount in January. This was because the new computer server was purchased in January instead of December 2019. The Board had increased the 2019 Computer and Software Purchases budget amount to cover this purchase, but scheduling issues pushed the purchase out into 2020. The Board can address this increase during the Mid-Year Budget Revision process.

## COMMERCIAL LEASE AGREEMENT

This lease is made on the 1st day of January 2020, by and between: Whitlock Limited Partnership I, General Partner – Terry J. Whitlock, hereinafter called Lessor, Thurston Conservation District, hereinafter called Lessee.
WITNESSETH:

- **1. Premises:** Lessor does hereby lease to Lessee, those certain premises commonly known as Building #1, Suites A & B (address: 2918 Ferguson St. SW, Tumwater, WA 98512) of Mottman Center Warehouses, (hereinafter called "Premises"), being situated upon land described as Parcel #A of BLA #7269. The rented space shall represent approximately 5475 square feet of floor building space.
- **2. Term:** The term of this Lease shall be for Two (2) years and shall commence on the 1st day of February, and shall terminate on the last day of January 2023. Lessee shall have the option to renew this Lease year to year up to an additional five years.

Lessor has agreed to allow Lessee to occupy the lease spaces referenced in this document rent free until such time as their obligation to their current lease has been satisfied. Lessee agrees to aggressively attempt to sublet their current space.

**3. Rent:** Lessee covenants and agrees to pay Lessor, at the offices of Lessor, 2915 29<sup>th</sup> Avenue S.W., Suite A, Tumwater, WA 98512, or to such other party or at such other place as Lessor may hereafter designate, monthly 'base' rent in the amount of <u>Four Thousand One Hundred Eight</u> dollars (\$4,108) in advance on the first day of each month.

## **Inflation Protection:**

On each anniversary of the commencement date of this lease, the base rent shall be increased to an amount equal to the previous year's rent plus an amount equal to any increase in the Consumer Price Index, and this sum shall become the base rent for the year following each anniversary. The basis for computing any such increase shall be the United States Department of Labor Statistics Consumer Price Index for all Urban Consumers, Subgroup All Items for 'Seattle Area' (1982-1984+100) which is published for the period nearest each anniversary (the "Index"), and such index published one year prior thereto shall be considered the "Base" to be used for calculating adjusted rent at the applicable anniversary date. On each anniversary date, the rent shall be increased by a percentage equal to the percentage increase, if any, in the Index over the base. By way of example, if the applicable Base for the adjustment were 150 and the applicable Index were 155, the percentage increase would be 3 1/3% ((155-150)/150) and the rental would be increased by 3 1/3%. If there is no increase in the Index, the rent shall remain the same as in the previous year. If the specified index is discontinued or revised, such other governmental index or computation which replaced the specified index shall be used so as to obtain substantially the same result as if the specified index had not been discontinued or revised.

At no time will the Lessee be allowed to alter or remove any part of the tenant improvement without prior written approval of the Lessor. The Lessee owns only its equipment, fixtures and furniture after the term if the lease has expired. If Lessee is in possession of the premises for a portion of a calendar month, the monthly rent shall be prorated for the number of days of Lessee's possession during that month. If Lessee does not pay any installment of rent by the tenth (10<sup>th</sup>) day of the month of its due date, in addition to payment of the overdue rent, Lessee shall bear interest at the rate of eighteen (18) percent per annum from the date due until paid. Any checks

received which are returned for non-sufficient funds will be charged a handling fee of \$50.00, in addition to any other late payment penalty charges.

**Security Deposit:** A security deposit for Three Thousand Eight Hundred Thirty-five Dollars (\$3,835.00). Lessor hereby acknowledges Three Thousand Eight Hundred Thirty-five (\$3835.00) as a security deposit for any damage that might occur because of actions by the Lessee beyond normal wear and tear. Lessor shall not be required to maintain such security deposit in any separate special account. The existing security deposit remains in force.

**4. Utilities and Fees:** Lessee agrees to pay all charges for light, heat, water, sewer, garbage, drainage, building security systems and all other utilities and services to the premises during the full term of this lease. Any above charges which are received by the Lessor as a combined billing will be distributed on a square footage prorated basis to each tenant on a billing cycle determined by the Lessor. The Lessee will not receive any prorated charge before service is received and all payments to the Lessor after billing to Lessee are due within ten (10) days. Any late utility and fee payments are subject to an interest rate charge of eighteen percent (18%) per annum until all late charges are paid in full. The above items are not included in the lease payments from Point #3 above. All other items including all license fees and other governmental charges levied on the operation of Lessee's business on the premises will be paid directly by Lessee. In the event the leased premises are a part of a building or larger premises to which such charges are charged as a whole, with the consent of the Lessor, then Lessee agrees to pay, upon demand, a proper and fair share of said charges. Lessee is responsible for Utilities and Fees from the first day of occupancy irrespective of the official lease dates.

In as much as Lessee is not occupying all of the available lease space in the suite, Tenants of the remaining lease space shall share the costs of Utilities and Fees on a per square foot basis.

- **5. Taxes & Property Insurance:** Lessee shall be liable for, and shall pay, throughout the term of this Lease all personal property taxes upon Lessee's fixtures, furnishings, equipment and stock in trade, Lessee's leasehold interest under this Lease or upon any other personal property situated in or upon the Premises. If any governmental authority at any time levies a tax on rentals payable under this lease or a tax in any form against Lessor because of or measured by income derived from the leasing or rental of the Premises, such tax shall be paid by Lessee; provided, however, that Lessee shall not be liable for the payment of any tax imposed on Lessor's gross or net income without regard to the source of such income.
- **6. Common Areas:** If the premises are part of a building occupied by other tenants, Lessee agrees to conform to Lessor's rules and regulations pertaining to the parts of the building that are in common use by tenants. In as much as Lessee is not occupying all of the available space in the suite, Lessee agrees to share restroom and kitchen areas with other occupants. Maintenance of common areas is a joint responsibility between co-tenants of the suite.
- 7. Repairs and Maintenance: Premises have been inspected and are accepted by Lessee in their present condition unless noted herein at paragraph 29. Lessee shall, at its own expense and at all times, keep the premises neat, clean and in a sanitary condition, and keep and use the premises in accordance with applicable laws, ordinances, rules, regulations and requirements of governmental authorities. Lessee shall permit no waste, damage or injury to the premises. Any required maintenance and repair of the leasehold improvements are the responsibility of the Lessor. Lessee is required to utilize carpet pads under desk chairs.

- **8. Signs:** All signs or symbols placed by Lessee in the windows and doors of the premises, or upon any exterior part of the building, shall be subject to Lessor's prior written approval. Lessor may demand the removal of signs which are not so approved, and Lessee's failure to comply with said request within forty-eight (48) hours will constitute a breach of this paragraph and will entitle Lessor to terminate this Lease or, in lieu thereof, to cause the sign to be removed and the building repaired at the sole expense of the Lessee. At the termination of this Lease, Lessee will remove all signs placed by it upon the premises, and will repair any damage caused by such removal. All signs must comply with sign ordinances and be placed in accordance with required permits.
- **9. Alterations:** After prior written consent of Lessor, Lessee may make alterations, additions and improvements in said premises, at Lessee's sole cost and expense. In the performance of such work, Lessee agrees to comply with all laws, ordinances, rules and regulations of any proper public authority, and to save Lessor harmless from damage, loss or expense resulting from Lessee's negligence or that of its agents or contractors. Unless previously agreed to in writing within the consent noted above and upon termination of this Lease and upon Lessor's request, or Lessor's approval, Lessee shall remove such improvements and restore the premises to its original condition not later than the termination date, at Lessee's sole cost and expense. Any improvements not so removed shall be removed at Lessee's expense provided that Lessee shall pay for any damage caused by such removal.
- 10. Condemnation: In the event a substantial part of the premises is taken or damaged by the right of eminent domain, or purchased by the condemnor, in lieu thereof, so as to render the remaining premises economically untenantable, then this Lease shall be canceled as of the time of taking at the option of either party. In the event of a partial taking which does not render the premises economically untenantable, the rent shall be reduced in direct proportion to the leased property taken or Lessee may cancel this Lease at its option. Lessee shall have no claim to any portion of the compensation for the taking or damaging of the land or building. Nothing herein contained shall prevent the Lessee from his entitlement to negotiate for his own moving cost and his leasehold improvements.
- 11. Parking: Lessee understands that parking is apportioned in conformity with controlling zoning ordinances and that Lessor shall have the right to make such regulations as Lessee deems desirable for the control of parking automobiles on the real property described in Exhibit A or property under Lessor's control, including the right to designate certain areas for parking of the Lessee, employees of Lessee, his customers and other Lessees of said building. The designated parking spaces shall be in front of the spaces leased out to the Lessee only. No signage shall be supplied for this parking for the Lessee.
- **12. Liens and Insolvency:** Lessee shall keep the premises free from any liens arising out of any work performed for, materials furnished to, or obligations incurred by Lessee and shall hold Lessor harmless against the same. In the event Lessee becomes insolvent, bankrupt, or if a receiver, assignee or other liquidation officer is appointed for the business of Lessee, Lessor may cancel this Lease in its Option.
- 13. Subletting or Assignment: Lessee shall not sublet the whole or any part of the premises, nor assign, mortgage, pledge, or otherwise encumber this lease without the expressed written consent of Lessor, which will not be unreasonably withheld. This lease shall not be assignable by operation of law. Any transfer of a controlling interest in Lessee, including without limitation, any sale, in one sale or in the aggregate, of more than 50% of the outstanding stock of Lessee shall be deemed an assignment. Notwithstanding, Lessor's consent to any assignment, subletting,

or encumbrance, Lessee shall remain liable hereunder unless expressly released from liability from Lessor in writing.

- **14.** Access: Lessor shall have the right to enter the premises at all reasonable times for the purpose of inspection or of making repairs, additions or alterations, and to show the premises to prospective tenants for sixty (60) days prior to the expiration of the Lease term.
- **15. Possession:** If for any reason Lessor is unable to deliver possession of the premises at the commencement of the term of the Lease, Lessee may give Lessor written notice of its intention to cancel this Lease if possession is not delivered within thirty (30) days after receipt of such notice by Lessor. Lessor shall not be liable for any damages caused by delay, and Lessee shall not be liable for any rent until such times as Lessor delivers possession. A delay of possession shall not extend the term or the termination date. If Lessor offers possession of the premises prior to the commencement date of the term of this Lease, and if Lessee accepts such early possession, then both parties shall be bound by all of the covenants and terms contained herein, including the payment of rent during such period of early possession.
- 16. Damage or Destruction: In the event the premises are rendered untenantable in whole or in part by fire, the elements, or other casualty, Lessee may cancel this Lease at its option, Lessor may elect, at its option, not to restore or rebuild the premises and shall so notify Lessee, in which event Lessee shall vacate the premises and this Lease shall be terminated; or, in the alternative, Lessor shall notify Lessee, within thirty (30) days after the notice of such casualty, that Lessor will undertake to rebuild or restore the premises, and that such work can be completed within one hundred eighty (180) days, and Lessee did not earlier elect to terminate, then the Lease may be terminated at Lessee's option by written ten (10) day notice to Lessor. During the period of untenantability, rent shall abate in the same ratio as the portion of the premises rendered untenantable bears to the whole of the premises.
- 17. Indemnity: Lessee, as a material part of the consideration to be rendered to Lessor, shall defend, indemnify and save Lessor harmless from and against any and all claims or causes of action which may arise based on the Lessee's occupancy and use of the demised premises by Lessee, its subtenants, invitees, agents, employees, contractors, or licensees. At all times during the term of this Lease, Lessee shall maintain comprehensive general liability insurance covering bodily injury and property damage, including that for which Lessee or its agents, representatives, employees, contractors, subtenants, licensees or invitees may be liable with respect to the Premises. Such liability insurance shall have policy limits of not less than One Million and 00/100 Dollars (\$1,000,000.00) per occurrence and One Million and 00/100 Dollars (\$1,000,000.00) per person for bodily injury and One Million and 00/100 Dollars (\$1,000,000.00) per occurrence for property damage. Each liability policy shall name Lessor as an additional insured and loss payee and shall include a mortgagee endorsement in favor of and in form acceptable to the holder of any deed of trust or mortgage on the Premises. Each liability policy shall provide that notice of cancellation of the policy or any endorsement shall be given to Lessor at least thirty (30) days prior to cancellation. Lessee shall provide Lessor and each lender designated by Lessor with certificates of insurance evidencing such coverage and shall provide evidence of renewal at least thirty (30) days prior to the expiration of such policy or policies.
- **18. Subrogation Waiver:** Lessor and Lessee each herewith and hereby releases and relieves the other and waives its entire right of recovery against the other for loss or damage arising out of or incident to the perils described in standard fire insurance policies and all perils described in the "Extended Coverage" insurance endorsement approved for use in the state where the premises are located, which occurs in, on or about the Premises.

- 19. Default and Re-entry: Time and exact performance are of the essence of this Agreement, and, in case default shall be made by Lessee in the payment of any rent or other amount payable hereunder upon the date when the same shall become due and payable, and such default continues for five (5) days, after service of written notice of such default by Lessor, or in case default shall be made by Lessee in the performance of any other terms, conditions or covenants of this Lease, other than the covenant for payment of rent or other amounts, and such default shall continue for a period of ten (10) days, after service of written notice of such default by Lessor or Lessee, then Lessor may:
  - **19.1** Enter into and upon the Premises, or any part thereof, and repossess the same, with or without terminating this Lease, and without prejudice to any of Lessor's remedies for rent or breach of covenant, and, in any such event, may, at Lessor's option, terminate this Lease by giving written notice of election so to do, or may, at Lessor's option, let the Premises, or any part thereof.
  - 19.2 Enter upon and take possession of the Premises as the agent of Lessee without terminating this Lease and without being liable to prosecution or any claim for damages. Lessor may re-let all or any portion of the Premises for such term and upon such terms as Lessor sees fit and receive the rent, in which event Lessee shall pay to Lessor on demand actual damages incurred by Lessor, including the cost of repairing and re-letting the Premises and any deficiency arising by reason of such re-letting. If Lessor elects to enter and re-let the Premises, Lessor may at any time thereafter elect to terminate this Lease for Lessee's default.
  - 19.3 Do whatever Lessee is obligated to do by the provisions of this Lease and may enter the Premises without being liable to prosecution or claim for damages in order to accomplish this purpose. Lessee agrees to reimburse Lessor immediately upon demand for any reasonable expenses which Lessor may incur in complying with the terms of this Lease on behalf of Lessee. Lessee agrees that Lessor shall not be liable for any damages to Lessee for such action, whether caused by negligence of Lessor or otherwise.
  - **19.4** Upon any entry of the Premises by Lessor, Lessor may, but shall not be obligated to, remove any personal property and hold it for the owners thereof or may place the same in a public garage or warehouse, all at the risk and expense of the owners thereof, and Lessee shall reimburse Lessor for any expense incurred by it in such removal and storage. Lessor shall have the right to sell the stored property, without notice to Lessee, after it has been stored for a period of thirty (30) days or more, the proceeds of such sale to be applied first to the costs of sale, of any amounts then owing from Lessee to Lessor, and finally to Lessee.
  - 19.5 The foregoing rights and remedies given to Lessor are and shall be deemed to be cumulative and in addition to any other remedies available to Lessor at law or in equity, and the failure upon the part of Lessor at any time to exercise any right or remedy hereby given to Lessor shall not be deemed to operate as a waiver of right to exercise such rights or remedies at a future time.

Exception: For the above non-monetary defaults, the lessee will not be in default if the cure is undertaken and diligently pursued to completion and the cure begins within 10 days after notice.

**20. Thurston County Community Planning & Economic Development C/O Shannon Shula, Associate Planner 2000 Lakeridge Dr. SW Olympia WA, 98502

Re: 2020-21 Docket - Support for Agricultural Policies and Programs Review

Dear Shannon Shula,

Thurston Conservation District strongly supports a review agricultural lands, including policies, prime farmland soils, and conservation programs such as transfer and purchase of development rights, to ensure support for agriculture.

Thurston CD recommends that the Board of County Commissioners place CPA-16, Community-Driven Review of Agricultural Policies and Programs, recommended by the Thurston County Planning Commission, on the Final Official Docket for 2020-21. To support a comprehensive analysis, Thurston CD recommends including CPA-8, Transfer of Development Rights/Purchase of Development Rights Programs, as a component of the CPA-16 Agricultural Policies and Programs review.

Thurston CD is committed to supporting these docket items and is happy to collaborate with Thurston County on a review of agricultural policies and programs. Thank you for your partnership in support of working lands, conservation and agricultural viability in Thurston County.

Sincerely,

Tj Johnson, Board Chair

#### **Priority Initiative Updates**

#### **Working Lands Preservation**

There has been a lot of progress on the Working Lands Preservation front. Here are some additional details and next steps for the coming months.

In the last month, I have met with partners at Thurston County, US Fish and Wildlife Service (USFWS), WSU Extension, Community Farmland Trust (CFLT), Washington State Conservation Commission (WSCC), City of Olympia and more to discuss our commitment to supporting robust working lands preservation efforts in Thurston County and the develop of a broad and collaborative Regional Conservation Partnership Program (RCPP) grant.

To ensure a successful initiative and RCPP grant submission, broad collaboration and initial groundwork is needed to identify priorities and bring both partners and community members to the table. Thurston CD is working with partners at WSU Extension, Thurston County, PCC Farmland Trust and the Center for Natural Lands Management on a planning grant to bring additional resources, capacity and facilitation to help conduct this groundwork successfully.

Our local Sentinel Landscape Partnership group is a broad group of organizational and citizen partners focused on ensuring habitat conservation, agricultural viability and military readiness around JBLM. This group includes local, state and federal government partners, as well as non-profits and community members who are committed to working together on the shared goals among these compatible land uses. I will be presenting and facilitating, along with other governmental and organizational leaders at a meeting on March 3<sup>rd</sup>, to identify additional areas of collaboration, funding, programs and outreach opportunities. This information will be used to support many shared conservation and working lands preservation goals into the future.

In early February, Board Chair Tj Johnson and myself met with City of Olympia Parks staff and members of the Community Farmland Trust (CFLT) to discuss the future of the Zahn Parcel (Spooner Berry Farm on Yelm Hwy). Thurston CD and the CFLT discussed the City of Olympia's policy on a zero net loss of agricultural lands, along with strategies for both onsite mitigation (continued agricultural use) and establishing a mitigation fund for conservation of other agricultural lands within the city. Thurston CD has offered to assist in future planning for the use of this site and strategies to support the zero net loss policy.

Looking forward, many of these moving pieces will continue to gel and intertwine as partners and community members develop strategies and secure funds to successfully preserve working lands in our area. The opportunity to meet shared organizational

goals, preserve prime agricultural lands, protect listed species and support our community appears to be ripe and many are coming to the table in collaboration to ensure a successful local working lands preservation initiative.

#### 2019 Annual Report

Staff are finishing compiling the 2019 Annual Work Plan Report, which will be shared in early March. This report will showcase the progress that Thurston CD has made on our annual plan goals during the 2019 calendar year. Copies will be submitted to Thurston County as part of our final report for the 2019 Rates and Charges funding.

In addition, Thurston CD staff are working to put together an interactive story map of past and present Thurston CD projects that will help us tell our story publicly as a community service organization. The story map will be available on our website and shared via web links and social media. Story maps use Geographic Information System (GIS) tools to combine geospatial data with photos, video, audio, and text. This is a great way to increase public engagement and share data in a non-technical and highly visual communication style. The story map is anticipated to be available on our website this summer, and will be continually updated with both future and historical project data.

#### 2020 Native Plant Festival & Sale

Our Annual Native Plant Festival is coming up on Saturday, February 29th from 10am – 3pm at the Thurston County Fairgrounds. This event is an amazing community building and community outreach event for the District. This year we have 20 vendors joining us, including some hot food vendors, live music, and a fun photo booth!

#### **Staff Highlights**

- A highlight of the month for me was being able to attend the Cascadia Grains Conference. It was very informative and exciting to hear developments in the area of local grain infrastructure, processing, and added-value products, and what I learned there, I will relate back to landowners who are actively interested in grain production.
- In January, I completed an Irrigation Management Plan for an organic vegetable farm in the Budd/Deschutes watershed.
- Had three site visits with engineers from Mason CD; one for a Waste Storage Facility, another for Heavy Use Area, and the third was a site where both those practices will be implemented. It was great collaborating with the engineer and landowner to achieve the farmers' goals and take into account the environmental impact of the practice has on the natural resources.
- This month I worked on a variety of projects. I personally enjoyed planning the workshop 'Gardening with Native Plants.' I enjoyed creating a PowerPoint and workshop activity that will help our audience learn about using native plants to increase water quality. Also, I enjoyed attending the Cascadia Grains Conference. I learned about interesting research being conducted by our community partners and learned some useful social media tips from local producers.
- Held a successful 2020 election!
- South Sound GREEN: Partnered on NOAA Environmental Literacy grant proposal; held South Sound GREEN Advisory Meeting; planning for winter water quality testing and Student GREEN Congress (3/19/2020). Led salmon dissections at Rainier High School.
- I had the opportunity to spend the WACD Legislature day at the capitol with the ED and two supervisors. I learned about how we can enact change on the state level.
- This month much of my work was focused on identifying and developing projects for the current ASRP Project Development Grant Round, which funds multi-benefit projects as part of the ongoing Chehalis Basin Strategy work. We identified two projects, one in the Independence Valley, and one in the Skookumchuck Valley and completed grant applications for both.
