Customized Weed Control	(509) 929-3848 customwc@yahoo.com 70065	X	X	X	

## Questions to ask contractors

This is a list of good questions to ask your contractor when evaluating if you want to hire them for application of herbicide.

- ♦ How long will I need to wait before it is safe for humans and pets to re-enter the area?
- ♦ How long will I need to wait before it is safe for livestock to graze the area?
- ♦ What precautions do you take to protect fish and wildlife from harm, especially near water?
- ♦ Could the treatment affect my ability to safely grow crops and/or native plants in the area, and for how long?
