

BIO-SAFETY PROTOCOL

PLEASE CLEAN THE EQUIPMENT WHEN YOU RECEIVE THE EQUIPEMNT AND AFTER YOU USE THE EQUIPEMNT

Biosafety Procedure: Manure Spreader and Drop Spreader

The purpose of this procedure is to stop the spread of disease and pests from one operation to the next.

1. Once you receive the equipment you are required to spray the equipment and the trailer (including tires and undercarriage) with a hose. Ensure all material and residue is removed from the equipment.
2. Spray to wet all working surfaces of the manure spreader with Bioesque Botanical Disinfectant.
3. Allow the sprayed areas to air dry.
4. Once you have completed use of the equipment you are required to spray the equipment and the trailer (including tires and undercarriage) with a hose. Ensure all material and residue is removed from the equipment.
5. Again, spray to wet all working surfaces of the manure spreader with Bioesque Botanical Disinfectant.
6. Allow the sprayed areas to air dry.
7. Transfer equipment to the next renter.
